

## **CWA District 9 Frontier Bargaining Update July 21, 2022**

Your Bargaining Committee has spent the entire week addressing YOUR JOB SECURITY, Wages and Contractors with no movement from the Company.

FiOS Jobs of the Future-the Company wants status quo but we want the MOA eliminated or negotiated with tighter restrictions. Frontier has employed contracted labor for the bulk of the Fiber Build Out; this work should be ours...

The Company continues to reject our comprehensive wage proposal.

The Company continues to reject all attempts to extend Job Security to the end of the contract. Despite the Company's continued rejections to our logical proposals we continue to fight daily.

Your Bargaining Team continues to work diligently on your behalf to obtain a fair and just contract.

**NO JUSTICE! NO PEACE!**

**YOU WON'T BE SUCCESSFUL BUILDING  
GIGABIT AMERICA WITHOUT US...**
