

AT&T Bargaining Bulletin #3

February 25, 2024

The bargaining team convened with the company on Saturday, presenting a proposal to move all positions listed in Appendix E to corresponding titles in Appendix A. Additionally, the team submitted a Zone upgrade proposal, highlighting the escalating cost of living in California and Nevada. Given the substantial role the western region plays in the company's profitability, it is imperative for all of us to work towards preserving and enhancing our standard of living actively.

Regrettably, the company adhered to its consistent bargaining strategy and put forth a proposal that involves downgrading certain job titles.

To contribute to the collective effort in securing our future, please reach out to your CWA local for guidance on how you can participate in advocating for our shared interests.

Thank you for your attention and ongoing support.
