MARCH 5, 2024

While we are making progress on procedural details in Company-Union relations, the Bargaining Committee is still waiting for agreements and or counterproposals from the Company regarding outstanding Union proposals.

The Company stated they want to expedite contract negotiations to successfully create a new labor agreement. However, they seem to be in no rush to bargain for the important components of our contract:

- Pay,
- Benefits,
- and Job Security.

**We need everyone to be prepared to help us get the
Company's attention if needed.**
