

# Final Bargaining Report CWA District 9

## CWA & AT&T 2024-2028

### *A Message from Your District Vice President and Your Elected Bargaining Committees*

Dear CWA District 9 Brothers, Sisters, and Siblings:

Before returning to the bargaining table District 9 informed your bargaining team about the issues that needed to be addressed from the information they gathered from the local presidents. Taking into account the amount of mobilization, and actions being conducted and understanding how close the other district was to getting a TA, your bargaining team went back to the table and worked for every improvement we could get. Below, you will find the details of the Tentative Agreement reached through an intense few days of bargaining that adds actual dollars to every member and improves Overtime rules in appendix E along with a 4x10 scheduling trial for appendix E.

Based on the feedback that was passed on from District 9, your elected bargaining team worked tirelessly to achieve an agreement that would be beneficial to all employees. The highlights of what was achieved are below.

- Wages:** 14.25% increase (more middle loaded) exponentially to all titles, compounded to 15.02%. **FULL RETRO FOR EVERY TITLE**
- Employment Security:** Article 2 was maintained; pooling MOA was maintained. Additional improvements to Appendix E.
- Benefits:** Maintained medical, dental, and vision. Added funded HSA (Health care spending account) for the high-deductible plan, two-tier system for medical was eliminated. Retained the SSP and 401K.
- Working conditions:** Appendix E improvements, overtime cap to 12 hours, added improved double time language over 52 hours, improved notification language for schedule changes, secured a 4x10 scheduling trial and permanently added MLK day as a paid Holiday for Appendix A and E, and memorialized the 4-day work week for the call center.
- Other Goals and comments:** Retained Horizons, increased tuition aid, maintained neutrality and card check along with Successorship language.

Out of Pocket Max Provisions:

If the coverage tier is Individual + Children, Individual + Spouse or Family:

In a health care plan, the out-of-pocket (OOP) maximum is the most an individual pays for covered services in a plan year before the plan starts covering 100% of eligible costs. For a family or Individual + Spouse or Individual + Child(ren) plan, each individual has their own OOP maximum. If one person in the family reaches their individual OOP max, their future medical expenses will be fully covered by the plan, even if the overall family OOP maximum hasn't been reached. Other family members would continue to contribute toward their own expenses until either they reach their individual OOP max, or the family OOP max is met.

All Current Employees:

**Spouse/Partner Access to Medical Coverage Additional Medical Contribution:**

Participants whose spouse/partner enrolls in AT&T-sponsored medical coverage (within either self-insured or fully insured programs) but otherwise has access to medical coverage through their employer, excluding AT&T, will pay an additional monthly contribution toward their cost of coverage. The monthly additional contribution is shown below. The participant must attest that his or her spouse/partner does not have access to medical coverage otherwise the additional contribution will be applied.

Additional Monthly Medical Contribution:

2025	2026	2027	2028
\$115**	\$125	\$130	\$135

\*\* same as 2024

All Current Employees:

**Tobacco Use Additional Medical Contribution:**

Employees and/or spouses/partners who use tobacco, are enrolled in AT&T-sponsored medical coverage (within either self-insured or fully insured programs) and who choose not to participate in a designated Tobacco Cessation program will pay an additional monthly contribution toward their cost of coverage. The employee and/or spouse/partners must attest to no tobacco usage or engage in a Company-sponsored Tobacco Cessation program in the time defined during Annual Enrollment otherwise the additional monthly contribution will be applied. Engagement is currently defined as enrollment, participation and completion. A tobacco user is currently defined as someone who has used tobacco products more frequently than once a month. Tobacco products include cigarettes, cigars, pipes, e-cigarettes, vaporizers and smokeless tobacco. The definitions of engagement, tobacco user, tobacco products and the terms of the Company-sponsored Tobacco Cessation program may change from time to time, at the sole discretion of the Company.
