

Frontier Bargaining Report #17

9/23/2025

The Union and Company resumed negotiations.

The Union has still not received a serious, FAIR, and JUST healthcare counter proposal since the last regressive proposal that has come across the table.

Your Bargaining committee has reminded the Company time and time again that our members deserve a FAIR, living wage that enables the very workers that brought this Company success to be able to have healthcare rates and wages that enable a good work life balance in a time of increased cost of living.

We remain diligent and ready to negotiate an earnest contract when the Company is ready to acknowledge the workforce that provided them such profound results year over year!

Continue to mobilize and stand in solidarity with your Bargaining team! WE ARE THE NETWORK!
WE ARE THE SUCCESS OF THIS COMPANY! Remember RED THURSDAY and BLACK FRIDAY!!
