

TAKING ON AI & TECH:

Labor's Fight for the Future of Workers

February 3-4, 2026 Sacramento, CA

As we see a steady increase of robot bosses, electronic surveillance, artificial intelligence (AI), algorithm management, neurodata and other new emerging technologies in the workplace, technology poses an existential threat to workers and unions.

Join the California Federation of Labor Unions for a two-day convening on how to fight back against Big Tech and build a better future for workers.

Join us February 3-4th, 2026 for

Taking on AI & Tech: Labor's Fight for the Future of Workers

a 2-day convening in Sacramento.
